

TeamRelay™

Still performing handoffs using index cards? Searching for a centralized way for the entire team to be aware of To Do items and problem lists?

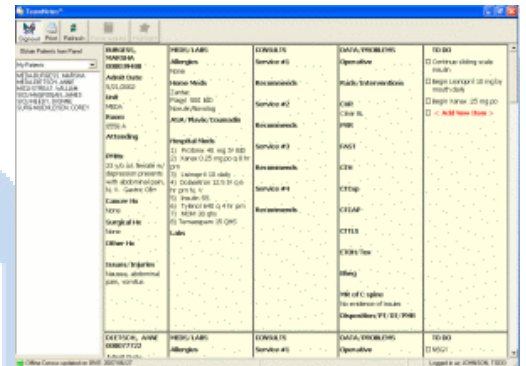

TeamRelay integrates with TeamNotes and automates the patient handoff lists. They are populated automatically with patient data and information from physician notes to streamline the process. Furthermore, handoff information can be viewed from anywhere in the hospital at any time.

Improve Patient Handoff

- Increase communication and collaboration between care team members
- Eliminate manual data duplication
- Reduce the potential for medical errors by simplifying the handoff process
- Meet recommendations from JCAHO and NQF on quality of care and patient safety practices

Improve Patient Safety

- Ensure each team member has access to the right information at the right time
- Ensure that everything is captured during shift changes

Patient Name	Physician	Location	Handoff Type	Handoff Time
JOHN DOE	DR. SMITH	Room 101	Handoff	10:00 AM
